

Quality Policy

Pure Energy Construction is a leading construction, integrator and supplier, focused on project management, EPCC of smart building contracting, electrical fitting contracting and solar energy system installation.

Our reputation for delivering quality projects is achieved through leadership commitment and the capability of our team members who ensure that our products and services meet our company standards.

Quality policy forms part of our main policy framework. To achieve our ambition of excellence we are committed to:

- Certification and demonstration of compliance to Category NACE41, NACE43 and ISO 9001:2015.
- Communicate our policies and management system to all team members.
- Customer focus to enhance customers satisfaction and exceed their expectation.
- Consistently provide products and services that meet our clients, authorities' requirements.
- Provide the knowledge required for the operation of our processes and to achieve conformity of products and services.
- Analyze the risks that can affect conformity of products and services and establish preventative actions.
- Identifying opportunities to enhance customer satisfaction.
- Review and improve our management system and processes in a structured way.
- Strengthen relationships and encouraging new and repeat business with our clients.
- Work synergistically with our supply chain to warrant for consistent approach.
- Build Pure Energy culture stand on integrity, honesty, openness, trust and respect.
- Continuous development of the skills, knowledge and experience of our team members to enable them to actualize their full potential by providing different types of required trainings.
- Ensure availability of competent and adequate resources to fulfill company's objectives.
- Plan our operations once for all, phasing out the risks associated with non-conformity and to protect the health and safety of all.
- Inspect, test and verify quality of our services and products.
- Ensure accurate information availability in a timely manner to control design, manufacturing, installation, commissioning and project close out.

Top management are committed to ensuring that this policy is implemented in line with legalization, regulations and codes of practice by all team members.
